

Dial-Up Networking for Windows 7

(Revised August 2011)

INTRODUCTION

This guide contains the information you need to set up your Windows 7 computer to dial into the Sailor Network using a Sailor Cruise Account or Sailor VIP Account.

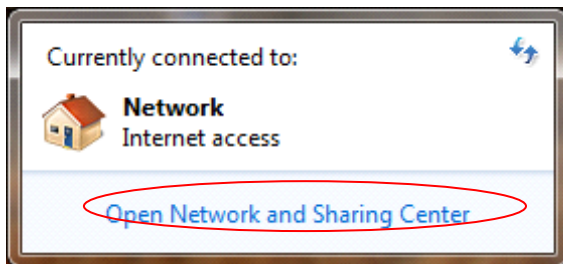

Your computer must have an internal or external telephone modem. The modem must be connected with a telephone cord to a telephone wall jack, preferably with a surge protector between the modem and the wall jack.

Set-Up

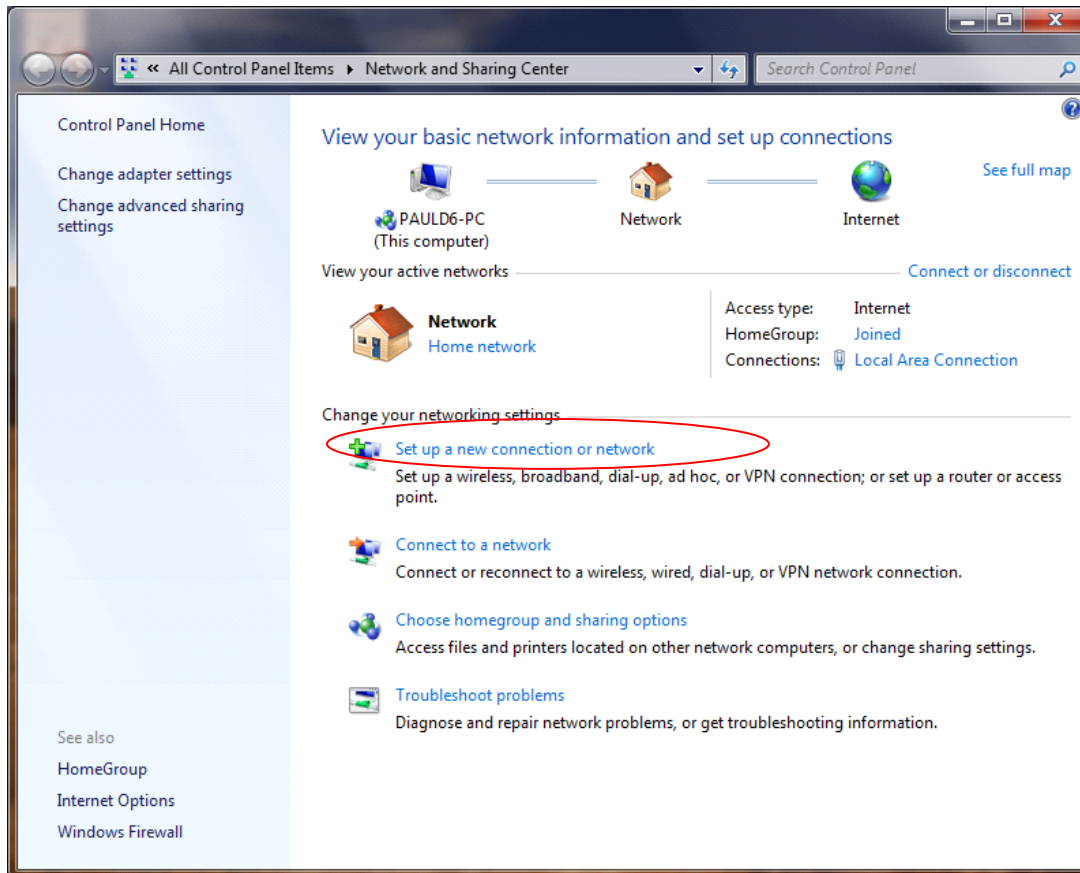

- Close all open applications, and click on **Internet access** icon in the Systems Tray (right side of taskbar).

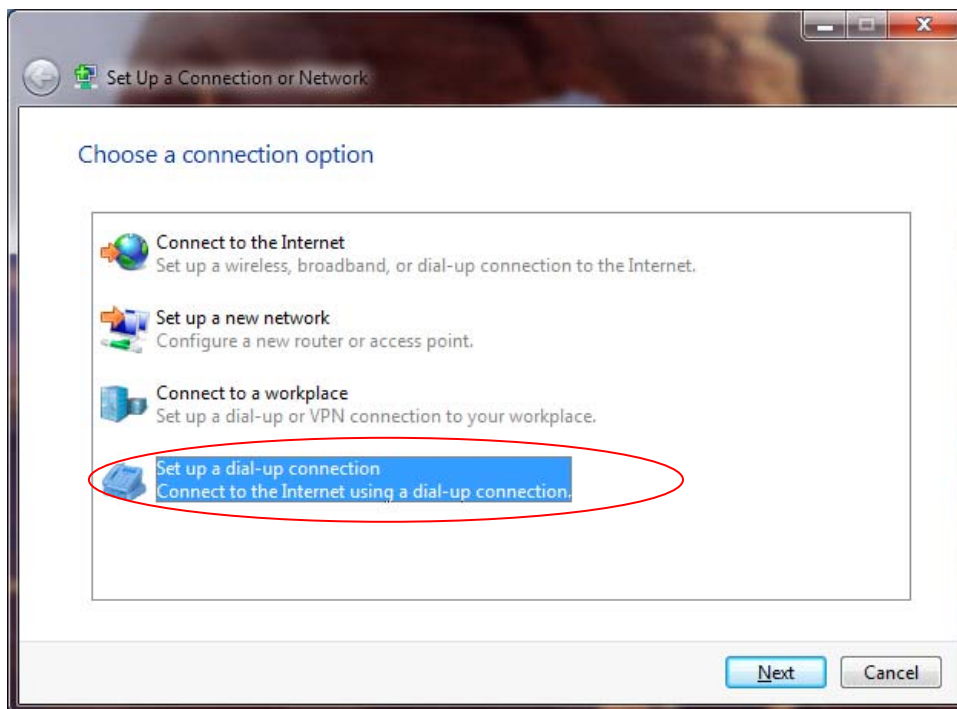

- Click **Open Network and Sharing Center**.

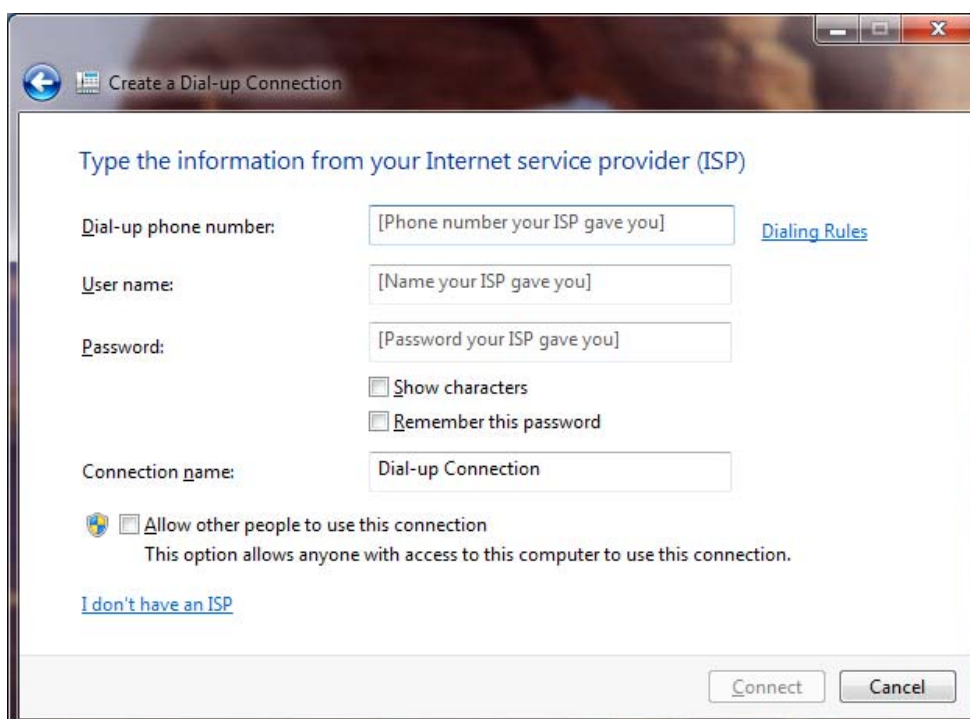

- Click **Set up a new connection or network**. The Network options screen appears.

- Click **Set up a dial-up connection** and click the **Next** button.

- In **Dial-up phone number** box, enter the ten digit Sailor Dial-Up Access number that is a local call from your location. (The list of local phone numbers for each county is located on the last page of these instructions.
 - **Caution:** You will be responsible for any long distance charges if you configure your computer to dial a long distance number. You need to include the area code unless you click on the dialing rules link and complete that dialog box. If you have Call Waiting, remember to preface the phone number with ***70** to disable Call Waiting. If you must dial 9 to get an outside line, place 9 before the area code.
- Type your **user name** and **password** from your Sailor Cruise Account Passport.
- You can check **Remember this password** if you wish.
- Type **Sailor** for the **Connection name**.
- When you complete the form, you will be able to click on the **Connect** button followed by the **Dial** button to dial into your Sailor Cruise Account.
- When the connection is established, open your **web browser**.

Your telephone line will be in use until you disconnect your call.

To disconnect your connection / hang up:

- Click the **Internet access** icon in the System Tray
- Click **Open Network and Sharing Center**.
- Click **Sailor**
- Click **Disconnect**.

To establish future dial – up connections:

- Click the **Internet access** icon in the System Tray and
- Choose **Sailor, Connect** and **Dial**.

NEED ASSISTANCE? Call the Sailor Help Desk at 410-396-4636.

SAILOR DIAL-UP ACCESS NUMBERS

Please be careful to only use numbers that are Local Calls from your location.

If you use a number that requires "1" before the Area Code to make a connection, you may incur Long Distance charges. Sailor is not responsible for Long Distance charges incurred dialing Long Distance into Sailor dial access numbers.
